# Multiple Compartments

Pixoo-Slingbag-V interior Compartments:

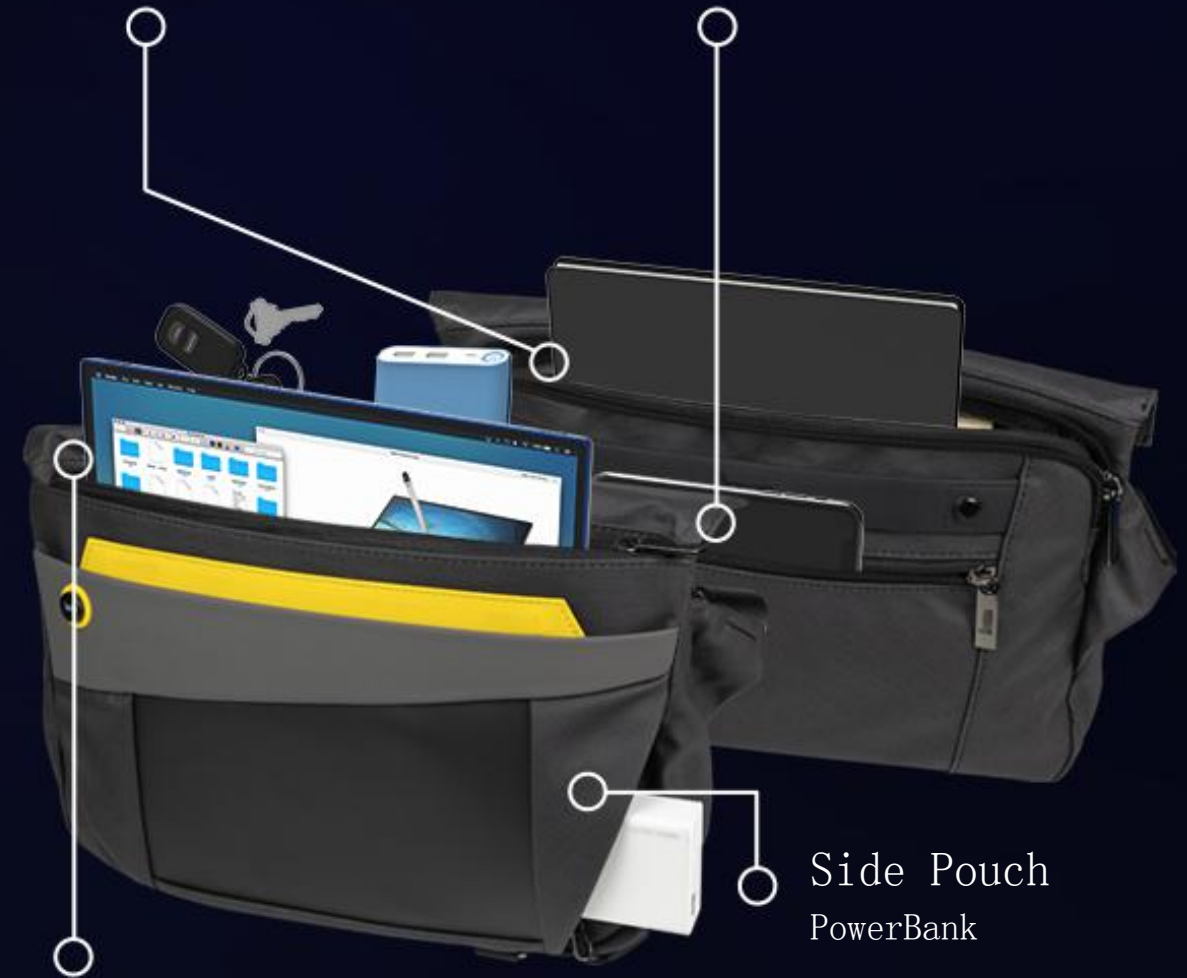

- Front pouch
- Main Compartment
- Rear Pouch
- Side Pouch

Pixoo-Slingbag-V offers more room than original Pixoo-Slingbag for your daily essential, including the iPad (except 12.9" iPad Pro).

Just carry and go!

Main Compartment / Rear Pouch

Tablet, Notepad / Keys, Refreshments/snack

Front Pouch

Smartphone, Wallet, Coins, Glasses etc...

Side Pouch  
PowerBank

# Weather Resistant

Pixoo-Slingbag-V uses water-repellent eco fabric, which offers a premium exterior quality, and repel water in rainy weather.

# Magnetic Buckle

A black magnetic buckle is shown on a black strap. The buckle has a central magnetic alignment point and a small tab for release. The strap is made of a woven fabric. In the background, a black bag with a zipper is partially visible.

Benefit of magnetic buckle:

- (1) Easy to clip on and off
- (2) Magnetic aligned

Unlike the traditional V-shape insert buckle, magnetic buckle is strong enough to hold a fully loaded Pixoo-Slingbag-V, yet easy enough for quick clip-on and off.

# Fashion Symbol

*Pixoo-Slingbag-V is a fashion symbol!*

Light up the street with the animations and catch everyone's attention.

# Pixoo-Slingbag

The original Pixoo-Slingbag is the hottest slingbag among the influencers.

Before the Pixoo-Slingbag-V, the original Pixoo-Slingbag already created a sales storm on the crowd-funding market, and it is popular among the international influencers.

As a result, both slingbags were easily adapted into the consumer market.
