

USB 400 Mini Lantern

Product Description

The LifeGear USB 400 Mini lantern is bright, lightweight and simple to use. The 5 function camp light offers these light modes – High, Medium and Low area lantern. At the base the lantern has red solid nightlight and red safety flash. This lantern runs at 400 Lumens and is water and impact resistant and made with durable construction. A clip-in hang loop makes it easy to suspend in a tent or carry on back of a backpack.
