- App-Enabled Technology
- Home & Living

Selling Points

Smart Plug & Power Meter
- Turn lights and appliances on and off via app, Siri or built-in button
- Effortlessly set up schedules to automatically switch devices – independently of your iPhone and home network
- Control your appliances on the go or based on presence via a home hub (HomePod, HomePod mini, or Apple TV)
- Track power consumption and see the projected cost based on your electricity rate
- Get up and running in a flash with quick & easy set up and no need for a bridge or gateway / TÜV-certified
- Joins your Thread network automatically, and as a router node the accessory enhances the stability and reach of your smart home / supports Bluetooth and Thread

Target Group

- Smart Home Buyers
- Builders
- Technology Enthusiasts
- Individuals & Families & iOS Users
